

SAFETY DATA SHEET VF-XV1 Plastic Media

| 1. PRODUCT AND COMPANY IDENTIFICATION | | | | | |
|---|--|--|--|--|--|
| Product Code: Product Name: Company Name: | VFXV1 VF-XV1 Plastic Media Vibra Finish Co. 8411 Seward Road Hamilton, OH 45011 | Phone Number: +1 (800)253-1941 | | | |
| Web site address: Emergency Contact: | www.vibrafinish.com Chemtrec | +1 (800)424-9300 | | | |
| Product Category: | Filled polymer | | | | |
| 2. HAZARDS IDENTIFICATION | | | | | |
| GHS Signal Word: GHS Hazard Phrases: GHS Precaution Phrases: GHS Response Phrases: GHS Storage and Disposal | None No phrases apply. No phrases apply. No phrases apply. No phrases apply. | | | | |
| Phrases: Potential Health Effects (Acute and Chronic): | No hazard expected in normal industrial use. | | | | |
| Inhalation: | nhalation:This product should not be used dry. Airborne concentrations of dusts or mists ma cause irritation to the upper respiratory tract and lungs. Respirable crystalline silica IARC and NTP probable carcinogen based on animal studies. | | | | |
| Skin Contact: | Handling this material with bare hands can cause abrasions. | | | | |
| Eye Contact: | It is possible for small fragments of this material or the work piece to be propelled from the work area and strike the eye. | | | | |
| Ingestion: | Not a likely route of exposu | Not a likely route of exposure. May be harmful if swallowed. | | | |
| Additional Hazards Information | This product, as supplied, is not classified as hazardous under OSHA. This product should not be used dry. | | | | |
| 3. COMPOSITION/INFORMATION ON INGREDIENTS | | | | | |
| CAS # Hazardous Com | ponents (Chemical Name) | Concentration | | | |
| 14808-60-7 Sand (Crystalline Silica) | | 60 - 70 % | | | |
| 1344-28-1 Aluminum oxide | 5.0 - 10 % | | | | |
| Additional Composition Information: | This product composition information is provided in the unlikely event that a dust is generated during the use of this product. In the material as supplied, these components are not readily available to create a respiration hazard. | | | | |

| | 4. FIRST AID MEASURES | | | |
|--|---|--|--|--|
| Emergency and First Aid | None that are directly attributable to normal use of this material. | | | |
| Procedures: | | | | |
| In Case of Inhalation: | If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician. | | | |
| In Case of Skin Contact: | Wash off with soap and plenty of water. Get medical aid if irritation develops and persists | | | |
| In Case of Eye Contact: | Flush eyes with water as a precaution. If eye irritation persists, get medical advice/attention. | | | |
| In Case of Ingestion: | Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician. | | | |
| Signs and Symptoms Of | The chronic health risks are associated with respirable particles of 3-4 um over protracted | | | |
| Exposure: | periods of time. This material, as supplied, is significantly larger than 3-4 um and does not pose as respiration hazard unless the material is used in a manner that generates a dust. This material should not be used dry. | | | |
| Note to Physician: | Treat symptomatically and supportively. Show this safety data sheet to the doctor in attendance. | | | |
| | 5. FIRE FIGHTING MEASURES | | | |
| Flash Pt: | NA Method Used: Not Applicable | | | |
| Explosive Limits: | LEL: No data. UEL: No data. | | | |
| Autoignition Pt: | NA | | | |
| Suitable Extinguishing Media | a: Use water spray, dry chemical, carbon dioxide, or appropriate foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. | | | |
| Fire Fighting Instructions: | As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH approved (or equivalent), and full protective gear. | | | |
| Flammable Properties and Hazards: | This material may burn when exposed to a fire situation. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion. | | | |
| Hazardous Combustion Products: | Fire conditions can result in the formation of carbon monoxide and carbon dioxide, and oxides of: aluminum. | | | |
| | 6. ACCIDENTAL RELEASE MEASURES | | | |
| Protective Precautions, Protective Equipment and Emergency Procedures: | Use proper personal protective equipment as indicated in Section 8. | | | |
| Environmental Precautions: | Do not let product enter storm drains, storm sewers, watersheds or water systems unless authorized. | | | |
| Steps To Be Taken In Case Material Is Released Or Spilled: | Use proper personal protective equipment as indicated in Section 8. Avoid dust formation. Avoid breathing dust. Collect for reuse or disposal if contaminated with foreign matter. | | | |
| | 7. HANDLING AND STORAGE | | | |
| Precautions To Be Taken in Handling: | Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Do not ingest or inhale. Provide appropriate exhaust ventilation at places where dust is formed. This product should not be used dry. Material is heavy, use proper lifting techniques. | | | |
| Precautions To Be Taken in Storing: | Store in a dry place. Store in well-ventilated place. | | | |
| Other Precautions: | Keep out of reach of children. Handle in accordance with good industrial hygiene and safety practices. | | | |

| | 10. STABILITY AND REACTIVITY | | | | |
|---|---|--|--|--|--|
| Reactivity: | Not reactive at normal temperatures and pressures. | | | | |
| Stability: | Unstable [] Stable [X] | | | | |
| Conditions To Avoid - Instability: | None known. | | | | |
| Incompatibility - Materials To Avoid: | Hydrogen fluoride. | | | | |
| Hazardous Decomposition or Byproducts: | r Fire conditions can result in the formation of carbon monoxide and carbon dioxide, and oxides of: aluminum. | | | | |
| Possibility of Hazardous Reactions: | Will occur [] Will not occur [X] | | | | |
| Conditions To Avoid - Hazardous Reactions: | No data available. | | | | |
| | 11. TOXICOLOGICAL INFORMATION | | | | |
| Toxicological Information: | Epidemiology: No information available. Teratogenicity: No information available. Reproductive Effects: No information available. Mutagenicity: No information available. | | | | |
| | Neurotoxicity: No information available. | | | | |
| | Other Studies: CAS# 14808-60-7: Acute toxicity, TCLo, Inhalation, Rat, 108 mg/m3, 6D. | | | | |
| | Other Studies: CAS# 1344-28-1: Tumorigenic Effects, TDLo, Intrapleural, Rat, 90 mg/kg. | | | | |
| Irritation or Corrosion: | This product should not be used dry. Airborne concentrations of dusts or mists may cause irritation to the upper respiratory tract and lungs. Airborne concentrations of dusts or mists may cause irritation to the eyes. | | | | |
| Symptoms related to | Handling this material with bare hands can cause abrasions. It is possible for small | | | | |
| Toxicological Characteristics | s: fragments of this material or the work piece to be propelled from the work area and strike the eye. | | | | |
| Chronic Toxicological Effects: | The chronic health risks are associated with respirable particles of 3-4 um over protracted periods of time. This material, as supplied, is significantly larger than 3-4 um and does not pose as respiration hazard unless the material is used in a manner that generates a dust. This material should not be used dry. | | | | |
| Carcinogenicity/Other Information: | OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA. Respirable crystalline silica is an IARC and NTP probable carcinogen based on animal | | | | |
| Carcinogenicity: | studies. NTP? No IARC Monographs? No OSHA Regulated? No | | | | |
